gebana is a fair-trade pioneer. We work with farming families around the world, selling their organic products directly to consumers in Europe. Our vision: we are changing global trade in favour of family farmers, local economies and the environment.

In our small team with an office in the center of Utrecht we can offer a Supply Chain Officer position at the Supply Chain department for max. 24 hours per week.

We are a trader in organic dried fruit and nuts which are imported from all over the world and distributed all over Europe, UK and USA. Our mother company is based in Switzerland and operates as a consumer web shop as well. www.gebana.com

In the Utrecht office we handle all imports into Europe and further distribution. Our customers are Food industry, packing facilities of retailers etc. and of course our mother company.

The Supply Chain team currently consists of 2 Supply Chain Officers. Our Supply Chain Officers plan, coordinate, organize, and execute all activities involved in the supply chain process of the company's products (import, shipping, storage, and export). It includes communication with our customers, suppliers, warehouses and distributors.

On 01.01.2026 or by agreement, we have the following vacancy:

Supply Chain Officer (24 hours per week)

YOUR RESPONSIBILITIES:

- Plan, organize, execute and control daily supply chain operations processes (such as purchase order-, transport-, sales order-, and warehouse processes, export, inventory turnover, stock and shipment accuracy);
- Ensure that the supply chain processes run efficiently, is well-coordinated with clear communication lines and adequate cooperation with Trade and Quality department, customers, vendors, carriers and warehouses.
- Prevent stagnation in the supply chain processes by identifying problems, delays and bottlenecks to reduce costs and improves timelines, inventory turnover and stock and shipment accuracy.
- Supports gebana south companies and other suppliers in planning, organizing and executing direct shipments to reduce costs, improve timelines and shipment accuracy.
- Keeping gebana informed and up to date on developments in the field of Supply Chain.
- Enter and update all supply chain process data (such as Purchase/Sales Orders, and Supplier/Vendor details) in the Microsoft Business Central (ERP system).

YOUR PROFILE:

- Proven experience in (international) supply chain management, logistics, or related role within a trading or similar fast-paced environment,
- Strong analytical and problem-solving skills,
- Use to negotiate rates and maintain relationships within the supply chain management processes (such as with warehouses, carriers and distributors),
